

KIDS CLUB

- When guests arrive at BIJAL resort, they can participate in a fun scavenger hunt game. They are required to find 30 miniature scenes placed throughout the resort and take a Polaroid photo of each scene using the Instax camera provided in their villa. If they manage to find all 30 scenes, they will receive a special surprise. Families are encouraged to explore together, and children of all ages will enjoy the journey.
- Guests can also play board games available throughout the resort. Upon entering their villa, they will find playful cards that guide them to locate the Instax camera. These cards not only provide guidance but also open the doors to surprise-filled games!
- For an extra special experience, guests can request a tent to be set up in their villa garden for a one-night camping adventure. Children of all ages will love this unique experience.
